Education

Haldia Institute of Technology

Bachelor of Technology, Information Technology

September 2022 - June 2026

CGPA: 8.0/10.0

Experience

Capgemini

January 2026 – May 2026

Software Engineer Intern

Haldia, West Bengal

- Analyzed functional requirements, prepared Test Plans, Test Scenarios, Test Cases, RTM, and executed Manual Testing for UI, API, and Hybrid (UI + API) workflows of a banking application, ensuring complete requirement coverage and traceability.
- Developed a scalable Playwright Automation Framework using **TypeScript**, Page Object Model (POM), API Fixtures, reusable utilities, and Parallel Execution to automate account creation, account validation, fund transfer, and negative test scenarios.
- Performed UI, API, and End-to-End Hybrid Testing using **Playwright** and **Postman**, validating data consistency between application and APIs, implementing schema validation, response validation, and performance validation through page load metrics and API response-time thresholds for business-critical workflows.
- Integrated automated test execution with **CI/CD pipelines**, Allure Reports, Playwright HTML Reports, screenshots, videos, traces, AI-assisted test generation, and **MCP (Model Context Protocol)** capabilities to improve test coverage, reporting, and defect tracking efficiency.

Projects

Transora Technologies Pvt. Ltd. – D2C Logistics Platform

September 2025 – December 2025

Freelance Project — Next.js, NestJS, Prisma ORM, PostgreSQL, Supabase

transora.in

- Designed and deployed a scalable **logistics and inventory management system** supporting real-time order processing, inventory tracking, and operational automation within a **4-member full-stack engineering team**.
- Implemented **Role-Based Access Control (RBAC)** across **4 operational dashboards** (Admin, Darkstore Manager, Brand User, Delivery Agent), automating shipment lifecycle management and reducing manual coordination by **60%**.
- Architected secure backend services using **NestJS, Prisma ORM, and PostgreSQL**, developed optimized **RESTful APIs**, and implemented **JWT-based authentication**, improving API response performance by **35%**.
- Delivered **Progressive Web App (PWA)** capabilities using **Service Workers and Push Notifications**, enabling offline access, background synchronization, and real-time operational alerts across distributed dark stores.

InterviewEasy – DSA Learning Platform

June 2025 – August 2025

Freelance Project — Next.js, React.js, Supabase, PostgreSQL, Razorpay

intervieweasy.in

- Engineered and launched a production-grade **interview preparation platform** serving **12,000+ active users**, featuring scalable architecture, dynamic routing, and enhanced frontend performance.
- Integrated **Razorpay API** with secure **webhook handling** for automated **subscription management**, billing reconciliation, and payment verification, reducing administrative workload by **85%**.
- Developed a real-time **1:1 mentoring scheduling system** with analytics dashboard, reducing booking time from **5 minutes to 45 seconds**, increasing user conversion efficiency.
- Implemented secure authentication using **Supabase Auth** (Email + Google OAuth) with JWT-based session management and role-based access control.

Technical Skills

Languages: C++ (DSA), JavaScript, TypeScript

Frontend and Backend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Node.js, Express.js, NestJS

Databases and APIs: PostgreSQL, MongoDB, MySQL, Supabase, Prisma ORM, RESTful APIs

Testing: SDLC, STLC, Manual Testing, UI Testing, API Testing, End-to-End Testing, Playwright, Apache JMeter

Tools and Platforms: Postman, Git, GitHub, Jira, Allure Reports, CI/CD Pipelines, MCP

Authentication and Payments: JWT, RBAC, Supabase Auth, Razorpay (Webhooks)
